

HK MP5 Submachine Guns

Developed by Heckler & Koch in the mid-1960s, the 9 mm MP5 submachine gun uses the same delayed blowback operating system found on the famous HK G3 automatic rifle. Reliability, accuracy, ease of handling, simple maintenance, and safety — all the elements of HK excellence are highlighted on the MP5s. Firing from the closed-bolt position in all modes of fire make MP5 submachine guns extremely accurate and controllable.

Over 120 MP5 variants are available to address the widest range of tactical requirements. A selection of optional trigger groups allow for single fire only, full automatic, 2-round, and 3-round burst options. The weapon's unique modular design and a variety of optional buttstocks, forearms, sight mounts, and other accessories gives the MP5 extraordinary flexibility to meet most any mission requirement.

Continual product improvements over more than 40 years of production have kept the MP5 up-to-date and technologically current; it is firmly established as the world's pre-eminent submachine gun among military and law enforcement users.

SEF Trigger Group S safe E single fire (semi-automatic) F fully automatic	Numerical Trigger Group S safe 1 single fire (semi-automatic) 20/25 fully automatic	SF (Single Fire) Trigger Group semi-automatic safe	0-1-2 Trigger Group two-round burst semi-automatic safe
0-1-3 Trigger Group three-round bursts semi-automatic safe	Navy Trigger Group fully automatic semi-automatic safe	2-Round Burst Trigger Group fully automatic two-round burst semi-automatic safe	3-Round Burst Trigger Group fully automatic three-round burst semi-automatic safe

MP5 TRIGGER GROUPS - SEF trigger groups have a single safety/selector lever on the left side, all other groups have safety/selector levers on both sides.

Accessory claw-lock scope mount and optional reflex sight. HK scope mounts attach to MP5 submachine guns without tools at special points that ensure 100% return to zero. HK scope mounts do not interfere with the use of the weapon's iron sights.

MP5 Universal Retractable Buttstock in extended position. MP5s can be fitted with a variety of buttstock options including receiver caps, retractable, fixed, and folding buttstocks. The Universal MP5 Retractable Buttstock has extended forks and dual rear sling attachment points.

The Navy model was developed for the elite U.S. Navy SEAL Teams.) MP5 Navy models have threaded barrels and can be used with or without an optional wet technology stainless steel sound suppressor.

The MP5K is the ultimate close quarters weapon. At 4.4 pounds and less than 13 inches long, the MP5K is easily concealed and carried. All MP5Ks can be fitted with an optional folding buttstock and some models can be fired from inside a specially designed briefcase.

The MP5SF (single fire) carbine is a semi-automatic only variant of the MP5 fitted with a trigger group that prevents full automatic firing. Single Fire (SF) trigger group can be replaced with other MP5 trigger groups to allow burst and full automatic firing.

The MP5's modular design allows for easy installation of a wide variety of optional buttstocks, forearms, sight mounts, and other accessories for any mission requirement. The optional Modular Rail System forearm (above) accepts rail mounted accessories including those of the U.S. SOPMOD Kit.
